

# Honeywell Uvex Acadia™

## Safety eyewear with style

Acadia eyewear is a bold, sport-inspired style that delivers superior comfort and high performance protection.

The 3/4 frame design offers high impact protection, with sculpted padded temples. The soft, ribbed nosepiece is ergonomically designed to minimize slippage for a secure, comfortable fit. Offered in two frame colors and a wide variety of lens tints, Uvex Acadia is available with Uvextreme Plus® anti-fog lens coating.

The safety eyewear is ideal for indoor and outdoor applications in construction, oil, gas, chemical, utilities, landscaping and manufacturing.

- Meets the ANSI Z87.1-2015 standard

### Lens Coating

Acadia has Uvextreme Plus® anti-fog lens coating, which offers long-lasting fog free vision that lasts up to 10X longer\* and provides 2X better scratch resistance\* than our next best coating. Acadia is also available with Hardcoat protection against scuffing and scratching.

8 lens tint options designed to suit your specific need

Premium integrated hinge provides customized fit and temple control when opening and closing.

Soft, molded inserts along the temple provide a comfortable and secure fit.

Lightweight, 3/4 frame is engineered to fit a wide range of workers, providing increased coverage.

\*Comparative lens life test performed using a Bayer Abrasion Test method and may vary between environment and application. Anti-fog performance based on independent lab test results.
