Product Numbers	Details
MAX-30	Max - corded SLC80 26dB Class 5. Approved to AS/NZS 1270:2002.
MAX-1	Max - uncorded SLC80 26dB Class 5. Approved to AS/NZS 1270:2002.
MAX-LS4	Max - uncorded bulk refill for Leight Source 400 SLC80 26dB Class 5. Approved to AS/NZS 1270:2002.
MAX-1-D	Max - uncorded bulk refill for Leight Source 500 SLC80 26dB Class 5. Approved to AS/NZS 1270:2002.

# Overview

### **Key Features**

- The world's most-used polyurethane foam earplug
- Bell shape delivers maximum in-ear comfort
- Contoured design easier to insert, resists tendency to back-out of ear canal
- Polyurethane foam enhances comfort, especially for long-term wear
- Smooth, soil-resistant closed cell-foam skin prevents dirt build-up
- Bulk refills for Leight Source 400 and Leight Source 500 Earplug Dispensers save time, waste and space

## **Recommended Industries/Use**

Agriculture
 Chemical
 Construction
 Fire Protection
 Forestry
 Government

**POST14 Care and Maintenance** 

http://www.honeywellsafety.com/Supplementary/Documents\_and\_Downloads/4294997025/1033.aspx

CARE AND MAINTENANCE Single-Use Earplugs Inspect Inspect prior to fitting, examine your earplugs for dirt, damage or extreme hardness —discard immediately if compromised. Discard For proper hygiene, discard Single-Use earplugs after use. Hygiene To maintain hygiene standards, Single-Use earplugs should be discarded at

# Training & Proper Use

- 1. With clean hands, roll the entire earplug into narrowest possible crease-free cylinder.
- 2. Reach over your head with a free hand, pull your ear up and back, and insert the earplug well inside your ear canal.
- 3. Hold for 30 40 seconds, until the earplug fully expands in your ear canal. If properly fitted, the end of the earplugs should not be visible to someone looking at you from the front.
- 4. Proper Fit If either or both earplugs do not seem to be fitted properly, remove the earplug and reinsert.

## Max Single-Use Earplug

- 5. Removal Gently twist earplug while slowly pulling in an outward motion for removal.
- Acoustical Check In a noisy environment, with earplugs inserted, cup your hands over your ears and release. Earplugs should block enough noise so that covering your ears with your hands should not result in a significant noise difference.

# **Additional Information**

### CARE + MAINTENANCE

- INSPECT Inspect prior to fitting, examine your earplugs for dirt, damage or extreme hardness—discard immediately if compromised.
- DISCARD For proper hygiene, discard Single-Use earplugs after use.
- HYGIENE To maintain hygiene standards, Single-Use earplugs should be discarded at the end of every shift.
